SUMMARY

Results-driven cybersecurity professional with over three years of experience in vulnerability assessment, penetration testing, configuration review, and security risk management. Adept at problem-solving, time management, and cross-functional collaboration in fast-paced environments. Proven ability to lead remediation efforts, enhance security posture, and deploy security solutions like SentinelOne and Harmony Point. Passionate about continuous learning, innovation, and cybersecurity awareness. Strong communicator with adaptability and leadership skills, committed to fostering a secure and resilient digital environment.

CORE COMPETENCIES

Vulnerability Assessment	Manual and Automate Testing	Perform Security Tools	Team Leadership
Penetration Testing	Configuration Review	Security Frameworks	Project Management

WORK EXPERIENCE

Cyber Security Analyst, RiskBerg Consulting Pvt. Ltd., INDIA

April 2022 – October 2024

- Performed comprehensive Vulnerability Assessment and Penetration Testing (VAPT) on web applications, APIs, networks, and infrastructure using tools like Nessus, Burp Suite, Nmap, and Metasploit, aligning with OWASP and CIS benchmarks. Identified and mitigated critical vulnerabilities to strengthen security posture.
- Conducted configuration reviews of cloud platforms and databases, detecting and addressing misconfigurations that could lead to security breaches or data leaks.
- Led and collaborated with cross-functional teams to develop and execute remediation plans for identified vulnerabilities in a fast-paced, deadline-driven environment, significantly reducing overall risk through timely mitigation of high-risk threats.
- Contributed significantly to the successful deployment of SentinelOne and Harmony Point, improving threat detection and prevention capabilities.

Cyber Security Intern, CyberSapiens, INDIA

June 2021 – March 2022

- Gained hands-on experience in identifying web application and network vulnerabilities as a Cyber Security Intern at CyberSapiens. Conducted manual and automated testing using the OWASP framework and successfully identified and reported vulnerabilities in a Web Application VAPT project.
- Developed expertise in endpoint security by coordinating and conducting event collection, log management, event monitoring, and identity monitoring activities.
- Actively contributed to the Hacker's Club at CyberSapiens, organizing events and campaigns to promote cybersecurity awareness and education.

EDUCATION

Master Of Cyber Security (Professional)

Deakin University, Geelong, VIC

Bachelor of Computer Science

Atmiya University, INDIA

Grade: 8.65

Programming and Data structure, Computer architecture and Operating system, Networking and Cyber Security

CERTIFICATIONS

- Certified AppSec Practitioner (CAP) by **The SecOps Group**
- Practical Ethical Hacking the Complete Course by **TCM Security**
- Penetration Testing and Ethical Hacking by **Cybrary**

HOBBIES

Backpacking

Sketching

Swimming

VOLUNTEER

Ocean and River Conservation Volunteer | Local Conservation Initiative

Assisted with beach clean-ups and river restoration.
